EN Attach temperature sensor connectors, fan connector and fan breather connector. For complete adjustment of the overhang by inclination angle, extend wires when necessary pos. **30, 31, 32**.

DE Schließen Sie die Steckverbindungen des Temperatursensors, den Stecker des Ventilators und des Entlüfters an. Für die vollständige Einstellung der Austragung je nach dem Anstellungswinkel verlängern Sie soweit erforderlich Kabel an der Positionen **30, 31, 32**.

RU Подсоединить разъемы датчика температуры, разъем вентилятора и сапуна вентилятора. Для полной регулировки выноса по углу наклона при необходимости удлинить провода поз. **30, 31, 32**.

EN Provide strong fastening of all branch pipes by zap straps pos. **29** to the frame and between each other in a way that they do not touch sharp edges under the luggage rack platform. As branch pipes are movable when being higher than the luggage rack platform due to adjustment of the relocation kit by inclination angle, please prevent touching of branch pipes and the hood and the luggage rack platform in order not to allow their abrasion.

DE Befestigen Sie alle Stützen mit Hilfe der Spannschellen (Position **29**) sicher zum Gestell und zueinander so, dass sie die scharfen Ränder unterhalb dem Gepäckraum nicht berühren. Da die Stützen über dem Gepäckraum wegen der Einstellung der Austragung je nach dem Anstellungswinkel beweglich sind, müssen sie mit der Haube und dem Gepäckraum nicht berühren, um deren Scheuern zu vermeiden.

RU Все патрубки надежно закрепить хомутами-стяжками поз. **29** к раме и между собой так, чтобы они не касались острых граней ниже багажной площадки. Так как выше багажной площадки патрубки подвижны из-за регулировки выноса по углу наклона, необходимо исключить касание патрубков с капотом и багажной площадки, во избежание их перетирания.
